Pop Game

Josh Kelley

Flipping through the magazines and Staring at the beauty queens I wonder if I can live the way they do Wouldn't it be nice if I could be so recognized I wouldn't have to wait in line with all of you

What would I want that for? What would I need that for?

I could flip backwards Sing a little faster Bring them all to their feet Living like a rock star Climbing up the pop charts Be the flavor of the week How would you still remember my name? Could you still remember my name? In the pop game

Living in the pop game In the pop game

I've gotta admit I've changed a bit But what the public wants, the public gets And my designer jeans They make my ass look tight And if I play my cards correct Well you can guarantee I'll cash the check Cause I don't wanna live on what I'm making tonight

Break through another door Find what I'm put here for

So just lend your ears while I sing my song Cause I think I can take you higher All our friends are here Come and sing along

And we all sing La la la la la la Come and sing with me La la la la la la And you sing with me, we go La la la la la la Oh, sing it La la la la la la Yeah

I could flip backwards Sing a little faster Bring them all to their feet Living like a rock star Climbing up the pop charts Be the flavor of the week Now would you still remember my name? Could you still remember my name? Well, if you think so go La la la la la la
