

We Don't Need the Money

Josh Kelley

Well I over heard your daddy
Saying I'm no good
And that you deserve somebody else
That'll treat you like a real man should
We'll he don't know me and he don't know love
And he don't don't know how I feel
All he sees is the color green
But it ain't about the dollar bill
Believe that

We don't need the money
To have a million dollar day
We don't need a reason
If we wanna celebrate
No Don't need a big house or a diamond ring
I say to hell with all them fancy things
We don't need the money
You know we don't need the money when we got each other babe

One day we'll live in a castle
And maybe travel the world
Break my back have a heart attack
Just to make us wealthy girl
And when the market crash we'll be on our ass
Sittin' back just a feelin' screwed
And that's just fine cuz all I need to be the richest man is you
Come on now

We don't need the money
To have a million dollar day
We don't need a reason
If we wanna celebrate
No Don't need a big house or a diamond ring
I say to hell with all them fancy things
We don't need the money
You know we don't need the money when we got each other babe

No we don't honey
Just a me and you babe
What you gonna do with all that money honey anyway

We don't need the money
No we don't no we don't no we don't don't don't
We don't need a reason
Don't need a reason do we baby
We don't need the money
No we don't we don't we don't we don't
We don't need the money
No we don't need the money when we got each other babe

We don't need the money
To have a million dollar day
We don't need a reason
If we wanna celebrate
No Don't need a big house or a diamond ring
I say to hell with all them fancy things
We don't need the money

You know we don't need the money when we got each other babe
We don't need the money
No we don't need the money when we got each other babe
We don't need the money
No we don't need the money when we got each other babe
