

If I love you to the grave  
If feelings for you kill me  
Overdose  
That'd be fine with me

Just so you know  
98  
Born to love til today  
All my life  
Gave you everything

I wanted to stay  
Remember to bring

Don't forget the rose  
You can put your heart  
On the head of my stone  
All...  
These thoughts don't go away  
They'll die with me  
I'll love you  
Forever and a day

I adore you  
Every piece  
Your body's my infinity  
I'm almost blind, you're all I wanna see

Oxygen  
I don't need  
If it's not your air I breath  
Can you stay  
Even in my dreams

I wanted to stay  
Remember to bring

Don't forget the rose  
You can put your heart  
On the head of my stone  
All...  
These thoughts don't go away  
They'll die with me  
I'll love you  
Forever and a day
