

ALL OVER AGAIN

Josh Levi

I was in my lane, know I like to drive
Since we parted ways, you've been in my blindspot
Said it was okay, but okay, I lied
I still think about you every other night

Trigger (Trigger), trigger (Trigger)
Saw them (Saw them) pictures (Pictures)
It ain't the (Ain't the) liquor (Liquor)
That's him (That's him) with ya

Now you got me mad all over, all over, all over again
I don't follow you, but I follow your friends
I don't wanna, I don't wanna see you with him
'Cause that's gon' make me mad all over again
All over, all over, all over again
I don't follow you, but I follow your friends
I don't wanna, I don't wanna see you with him
'Cause that's gon' make me mad all over again
(Yeah, yeah)

Backwards, backwards
How you got me chasin' after, after you?
When I said it didn't matter if you move on (Move on)
I'm pissed it didn't take you long

Trigger (Trigger), trigger (Trigger)
Saw them (Saw them) pictures (Pictures)
It ain't the (Ain't the) liquor (Liquor)
That's him (That's him) with ya (Oh)

Now you got me mad all over, all over, all over again
I don't follow you, but I follow your friends
I don't wanna, I don't wanna see you with him (Him)
'Cause that's gon' make me mad all over again
All over, all over, all over again (-ver again)
I don't follow you, but I follow your friends
I don't wanna, I don't wanna see you with him (Him)
'Cause that's gon' make me mad all over again

All over again, yeah
Oh, ayy, yeah
