

Drive By

Josh Levi

What the hell
Wrinkles in, wrinkles in
My forehead
Cause you're getting, cause you're getting closer in
To the guy on your side
Whats happening

Out by the fire
Chilling out, chilling out
Just got so cold
It got so loud it got so loud
Must save my life blindside, blindside
I was in love
Girl

Wish I saw the headlights no alibi
Am I bout to die?
If I see dis right
Can you give me more time to open my eyes
Shot me in a drive by
She did a drive by
Oh...

I'm outta here
What I was, unsure of became so clear
The difference in
What I hoped and what I feared
I was wrong to think you loved me the way I did
So call the wiz
I need a brain, need a heart, need a kiss, ohh
Please Mr. Wiz...

Wish I saw the headlights no alibi
Am I bout to die?
If I see dis right
Can you give me more time
To open my eyes shot me in a drive by
She did a drive by...

Wish I saw the headlights no alibi
Am I bout to die?
If I see dis right
Can you give me more time to open my eyes
Shot me in a drive by
She did a drive by...
