

NASA

Josh Levi

You said, "Go away"
Blocked my number yesterday
Now you on your way to my place
Forgot you ain't got nowhere to stay
It's your third week in LA
Goin' fast without the brakes
Now you sayin' that you fell in love with me
When it ends, I won't be the one to blame

It's cruel
But you can't help it
You know it's cool
If you wanna be toxic, yeah

She runnin' through these niggas like a track star
But she ain't never party with a rockstar, yeah
Ridin' in a foreign, goin' faster
Faster, faster, faster, faster, yeah
Runnin' through the city like a trap star
But she ain't never run into a rockstar, yeah
She wanna be a star like NASA
NASA, NASA, NASA, yeah

I love it when you contemplate
I love it when you tell friends about me
I love it when you missin' me
I love it when you post shit about me
You know this shit is fundamental
Now I'm fuckin' up your mental
Tell me, is this something that you're into?
I could meet you in the middle

It's cruel
But you can't help it
You know it's cool
If you wanna be toxic (Yeah, yeah)

She runnin' through these niggas like a track star
But she ain't never party with a rockstar, yeah
Ridin' in a foreign, goin' faster
Faster, faster, faster, faster, yeah
Runnin' through the city like a trap star (Yeah, yeah)
But she ain't never run into a rockstar, yeah
She wanna be a star like NASA
NASA, NASA, NASA, yeah

NASA, yeah
Faster, faster, faster, faster, yeah
NASA, yeah
NASA, NASA, NASA, NASA, yeah
