

Seen It All

Josh Levi

What you like, whats your dream?
Let me try, let me think
Open your mind, to anything
Don't draw the line, before you see

What I vibe, what I bring
Open your eyes, open to me
Welcome to my energy
I'm in the driver's seat

Where you tryna go?
Can you tell me?
Say you've seen it all
Can't be healthy
Forget, forget, forget what you know
Expect, expect, expect what you don't
Where you wanna go?
Can you tell me?

Get every memory out of your brain
And all that you know
Imma do in different ways
And just when you thought
Thought you can't get enough
I'll be right there with more
Give you new things to love
Leave it all me
Way it supposed to be
Got no one to thank
Got no reason to be thankful
Don't worry, girl
This what you deserve
You could never be ungrateful

Got more than flowers for you, baby
Night full of hours, full of crazy
Save all your doubts, you should save em
For somebody else

Girl, I'm waiting
Tell me what you wanna know, wanna know, wanna know
Don't be afraid if you fall in love, fall in love
It wouldn't be the worst thing, girl

Where you tryna go?
Can you tell me?
Say you've seen it all
Can't be healthy
Forget, forget, forget what you know
Expect, expect, expect what you don't
Where you wanna go?
Can you tell me?

Where you wanna, wanna, wanna go?
Wanna, wanna
Tell me what you wanna, wanna, wanna know
Wanna, wanna

Baby, where you wanna, wanna, wanna go?
Wanna, wanna
Tell me what you wanna, wanna, wanna know
I'm right here waiting for you

Where you tryna go?
Can you tell me?
Say you've seen it all
Can't be healthy
Forget, forget, forget what you know
Expect, expect, expect what you don't
Where you wanna go?
Can you tell me?...
