

## Clock On / Clock Off

Josh Pyke

It's in the corner sending over thought vibrations  
And it's on the bridges changing waveforms  
It's in the cracks between the flag stones in the pavement  
And it's in the pipes between the walls behind the house next door  
Now it's at your door to lay you down, said it's time in you

And I love the one you invented your hateful creature  
I'm not the one to send you down that road  
I didn't flinch when you approached me on the corner  
And I didn't bite when it appealed to my good hope that soon

Now it's at your door to lay you down, said it's time in you  
Now it's at your door to lay you down, said it's time in you

Clock on, clock off, what's to love repetition placed the hold  
Clock on, clock off, what's this saturation, bad start  
Clock on, clock off, what's to love repetition placed the hold  
Clock on, clock off, what's this saturation, bad start  
It's bad start, it's bad

Now it's at your door to lay you down, said it's time in you  
Now it's at your door to lay you down, said it's time in you  
Now it's at your door to lay you down

Clock on, clock off, what's to love repetition placed the hold  
Clock on, clock off, what's this saturation, bad start  
Clock on, clock off, what's to love repetition placed the hold  
Clock on, clock off, what's this saturation, bad start  
Bad start  
It's bad start, it's bad...
