Wonder

Josh Record

Soon stars will disappear
Have I forgotten how to sleep
I wonder

The clouds appear and lands will meet
The sun will raise its head for me
In wonder

And all I ever wanted is you
And all I ever wanted is you

Unashamed you bear my name
You take me to those days
When we were younger

Your secrets are now mine to keep
Our shadows meet
Uniting vow and love

And all I ever wanted is you
And all I ever wanted is you

All I ever wanted is you
And all I ever wanted is you

So here we stand
Oh, in the midst of all we have
We will stand

And all just a dream
With love we have achieved
And all I ever wanted is
All I ever wanted is you

All I ever wanted is you
And all I ever wanted is you

All I ever wanted is you
And all I ever wanted is you
