

# Burn Back

Josh Ross

Feels like things are just different  
That spark, baby, it's missing  
Lately, we been just driftin'  
I can see it in your eyes, let's fix it

Used to be you and me under those stars  
Clothes fallin' on the floorboard in the dark  
These days, those nights feel a little far  
So, tell me how we get that

Fire back when you kiss me  
When we're miles apart and you miss me  
Put the proof back in this whiskey drank  
It ain't hittin' me like it used to  
Turnin' up the heat without warning  
Messin' up the sheets in the morning  
Runnin' hot like some Goodyears rollin' 'round the race track  
Tell me how we get that  
Burn back  
Tell me how we get that  
Burn back

Turn back the clock to that good stuff  
Keep lights down, and the neighbors up  
Make the love we knew, little less rear view, girl, me and you  
Let's get that

Fire back when you kiss me  
When we're miles apart and you miss me  
Put the proof back in this whiskey drank  
It ain't hittin' me like it used to  
Turnin' up the heat without warning  
Messin' up the sheets in the morning  
Runnin' hot like some Goodyears rollin' 'round the race track  
Tell me how we get that  
Burn back  
Tell me how we get that  
Burn back

Lately, we've been driftin', let's fix it  
That high we had, it went missin'  
So, baby, let us get that

Fire back when you kiss me  
When we're miles apart and you miss me  
Put the proof back in this whiskey drank  
It ain't hittin' me like it used to  
Turnin' up the heat without warning  
Messin' up the sheets in the morning  
Runnin' hot like some Goodyears rollin' 'round the race track  
Just say the word and I'll light the match  
Tell me how we get that  
Burn back  
Tell me how we get that  
Burn back

Tell me how we get that

Burn back, burn back  
Tell me how we get that  
Burn back, burn back  
Tell me how we get that
