

Complicated

Josh Ross

To go—
To go and—
Why'd we have to go?
Why'd we have to go and—

You caught my eye from across the room
You were into me, I was into you
I bought you a drink, then we had a few
Before you knew it, a month turned into two
I met your friends and you met mine
We couldn't wait to cross the line
Leaning in a little
Supposed to be simple
Baby, we had it made

Why'd we have to go and complicate it?
Weren't we supposed to be the ones who made it?
Love ain't really all that hard to make, but
Back and forth, and out the door. We wasted
What would've been, what could've been forever
Thought that we would always be together
We had something good that we were chasing
Why'd we have to go and complicate it?

We burned out like a cigarette
I just gotta know if you got regrets
When was the second that you started to second-guess?
I gave you everything 'til I had nothing left

Why'd we have to go and complicate it?
Weren't we supposed to be the ones who made it?
Love ain't really all that hard to make, but
Back and forth, and out the door. We wasted
What would've been, what could've been forever
Thought that we would always be together
We had something good that we were chasing
Why'd we have to go and complicate it?

Why'd we have to go?
Why'd we have to go and—
Why'd we have to go?
Why'd we have to go and—

Why'd we have to go and complicate it?
Weren't we supposed to be the ones who made it?
Love ain't really all that hard to make, but
Back and forth, and out the door. We wasted
What would've been, what could've been forever
Thought that we would always be together
We had something good that we were chasing
Why'd we have to go and complicate it?

Why'd we have to go?
Why'd we have to go and—
Why'd we have to go?
Why'd we have to go and—
