

Movin' On

Josh Ross

You're bringing me up
In every conversation, every situation
I was thinking you had enough
It must be wearing you down now that I found
A nothing-like-you girl out on the town
In a nothing-like-that-bar, we used to go round for round for round
You told the world I was nowhere bound
But look who's going downhill now

Tore off on a high horse, but you're stuck in the fences
You thought you broke me, but you needed the fixing
Out of my life, girl, I got you gone
So what in the hell are you waiting on?
I took the high road, I even paved it
I could've sold you out, but I saved it, I saved it
I had every right to do you wrong
You know that list is long
Ever since we called it off
Why can't you turn that moving on?

You got what you wanted
You got what you wanted, baby, lucky you
But if we're being honest
You ain't being honest, baby, tell the truth
The smoke that you're blowing, I see it clear
Every time you look at that girl in the mirror

Tore off on a high horse, but you're stuck in the fences
You thought you broke me, but you needed the fixing
Out of my life, girl, I got you gone
So what in the hell are you waiting on?
I took the high road, I even paved it
I could've sold you out, but I saved it, I saved it
I had every right to do you wrong
You know that list is long
Ever since we called it off
Why can't you turn that moving on?
Why can't you turn that moving on?

You told the world that I was nowhere bound
But look who's going downhill now

Tore off on a high horse, but you're stuck in the fences
You thought you broke me, but you needed the fixing
Out of my life, girl, I got you gone
So what in the hell are you waiting on?
I took the high road, I even paved it
I could've sold you out, but I saved it, I saved it
I had every right to do you wrong
You know that list is long
Ever since we called it off
Why can't you turn that moving on?

Oh, turn it on
Why can't you turn that moving on?
Oh, oh
Why can't you turn that moving on?
