

## Songs You Gave Me

Josh Ross

You're the reason for my first love song  
We watched the sunrise 'cause I played it all-night long  
Ain't it crazy how those memories change?  
Now these chords sound a little more like heartbreak

I know you ain't in the crowd tonight  
But you're right here in every line

And now I'm standing here missing you  
And all my dreams have been coming true  
But I'm still breaking down right where you left me  
Up here on stage, singing these songs you gave me

Guess I should be giving you thanks  
But the truth is, you don't know what I'd trade for  
One more night with you  
Get us right back to  
You and me, and you would be  
In that front-row empty seat

And now I'm standing here missing you  
And all my dreams have been coming true  
But I'm still breaking down right where you left me  
Up here on stage, singing these songs you gave me  
Singing these songs you gave me

So many people here, but I feel lonely  
Still singing these songs, hoping you're listening

And now I'm standing here missing you  
And all my dreams have been coming true  
But I'm still breaking down right where you left me  
Up here on stage, singing these songs you gave me  
Now I'm on this stage, singing these songs you gave me
