

Afraid to Fail

Josh Rouse

Give me something real
On that FM stereo
It's time I made myself clear
It's time I've made myself know

It's not that I don't want to
I'm just afraid to fail
It's not that I don't want to
I'm just afraid to fail
And I don't want to
And I don't want to
And I don't want to

One hand on the wheel
And I'm halfway home
And is this the deal
Now I'm, I'm fully grown

It's not that I don't want to
I'm just afraid to fail
It's not that I don't want to
I'm just afraid to fail
And I don't want to
And I don't want to
And I don't want to
And I don't want to

And I don't want to
And I don't want to
And I don't want to
And I don't
And I don't
And I don't want to
