

# Comeback (Light Therapy)

Josh Rouse

I've been waiting for the longest time  
I want you to come back  
Maybe if the sun would shine  
It'd bring my happy back

In the dark  
So tired of waking up and its dark  
So tired of being stuck on my own here  
Norway is cold dear

And here comes June  
The sun is gonna shine in June  
The doctor says I'll feel better soon  
Fills my vitamin D pills  
He hands me the big bill

Cause I've been waiting for the longest time  
I want you to come back  
Maybe if the sun would shine  
You'd bring my happy back

I'm gonna stay on this mountain high  
Til you come running back  
Don't leave me hangin' out on that line  
I want you to come back  
I want you to come back

I miss my serotonin  
And my days are goin' nowhere fast  
The language is so foreign  
And I can never understand  
Understand

Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back  
Come back

Yeah cause I've been waiting for the longest time  
I want you to come back  
Maybe if the sun would shine  
You'd bring my happy back

I'm gonna stay on this mountain high  
Til you come running back  
Don't leave me hanging out on that line  
I want you to come back  
I want you to come back  
I want you to come back  
I want you to come back

Yeah

Waiting for the longest time  
Waiting for the longest time  
I want you to come back
