## **El Otro Lado**

**Josh Rouse** 

You called me up this evening Cause you wanted to know what's going on You give me ultimatum Cause you don't want to feel you are wrong

And I tell you that some folks don't evolve They're content with what they've got They just sit back and they watch TV

You talked about September Fought about your tastes, they were all mine What did you know anyhow When you said I'm lost but there's still time

And I tell you that some folks don't evolve They're content with what they've got They just sit back and they watch TV

Yeah I tell you that some folks don't evolve They're content with what they've got They just sit back and they watch TV Yeah but that's not me

But one day you'll come around to see the other side of things One day you'll come around to see the other side of things Yes you will You'll come around to see the other side of things You'll come around to see the other side of things
