

Life

Josh Rouse

One, two, three
Life is good, sometimes it's bad
It has its ups, it has its downs
Just sing a song and feel all right
'Cause that's just life

And if you're lost, don't be sad
There are good times, to be had
Just sing a song and let love shine
'Cause that's just life

That's just life, that's just life
So darling, don't cry

And when your hour, it is near
And your friends, they all are here
To share their love and to be kind
It's just life

Oh and when you're gone, you won't be back
I'll remember those, special times we had
I'll sing this song and feel alright
'Cause that's just life

That's just life , that's just life
So darling don't cry
