

Sunshine

Josh Rouse

Forget all your little problems
Forget the boy you left at the bar
I got a stash, been savin' for months now
California's not very far

Come on lady
Take this bum and make him right
You're my steady
You're the one that makes me feel sunshine
The one that makes me feel sunshine

I wanna be your baby, daddy
I wanna be your self-employed
So pack up the van and we'll go drivin'
To the coastal state

Come on lady
Take this bum and make him right
You're my steady
You're the one that makes me feel

So come on lady
Give this bum with a sense of pride
You're my steady
You're the one that makes me feel, feel sunshine
The one that makes me feel sunshine
The one that makes me feel sunshine
