

## This Kind of Love

Josh Turner

I love the way it feels  
To sit behind the wheel  
Of a brandnew automobile  
I love the way  
A song can start to play  
And take you back to younger days

I've known that kind of love  
You feel it for awhile and then its gone  
But girl tonight  
Holding you  
I realize that I've never known  
This kind of love

Sometimes its hard  
To let down your guard  
And trust somebody with your heart  
I know how  
It feels when they walk out  
And leave it in pieces on the ground

Oh I've known that kind of love  
You feel it for awhile and then its gone  
But girl tonight  
Holding you  
I realize that I've never known  
This kind of love

It's deeper and stronger  
And lasts a whole lot longer  
It's more than a word that people say

Because I've known that kind of love  
You feel it for awhile and then its gone  
But girl tonight  
Holding you  
I realize that I've never known  
This kind of love

This kind of love  
Mmmmmmmmmmm...
