

Ain't It Baby

Josh Ward

That's a once in a lifetime sky shinin' down on us tonight, ain't it baby?
Got a moon that makes two kids get together like we did, ain't it baby?

The song on the radio ain't the same but it still feels so damn right
When you're lyin' in my arms, stealin' my heart the way ya did that first time
It's kinda crazy, ain't it baby? Ain't it baby?

It's a kiss on a night like this, yeah it's just about as good as it gets, ain't it baby?
It's a feelin' like we can take this ride as far as we wanna take it, ain't it baby?

The song on the radio ain't the same but it still feels so damn right
When you're lyin' in my arms, stealin' my heart the way ya did that first time
It's kinda crazy, ain't it baby?

Girl this must be love for makin'
'Cause it's always so amazin'
Ain't it, baby?

The song on the radio ain't the same but it still feels so damn right
When you're lyin' in my arms, stealin' my heart the way ya did that first time
It's kinda crazy, ain't it baby? Ain't it baby?

Ain't it baby?
Ain't it baby?
