

More Than I Deserved

Josh Ward

She gave me a chance, she gave me her heart
She made me believe in love in the stars
Oh that girl was more, more than I deserved
And she was right there beside me, right through it all
She was stronger than the whiskey that built up this wall
That girl was more, more than I deserved

And I wish right now, she could see what goodbye's done to me
'Cause I know I could change her mind and make her stay
But then again, I know it's too late

If I could do it all over, I'd kissed her a little sweeter
Held her a little closer, been the man that she needed
'Cause that girl was more, more than I deserved

And I wish right now, she could see what goodbye's done to me
'Cause I know I could change her mind and make her stay
But then again, I know it's too late

She gave me a chance, she gave me her heart
She made me believe in love in the stars
'Cause that girl was more, more than I deserved
Oh that girl was more, more than I deserved
