

# Blown Away

Josh Wilson

Yea

She's dancing like a crazy fool  
from the kitchen to the dining room  
and she tells me, 'Baby, life is way too short to be too cool.'  
She says, 'When did we get so serious?  
Can we just all stop acting unimpressed?'  
There's a hundred million miracles in front of us passing by  
God open my eyes

I wanna be blown away!  
By your extraordinary grace every ordinary day  
Blown away!  
By your great big love in every little place  
I wanna slow down look around  
God please show me how to stop and be amazed  
I wanna be blown away!  
Blown away!

I want to see a sunset  
and have to stop and catch my breath  
O I never want to forget  
how you take a dead heart and bring back to life again

Oh!  
When did we get so serious?  
Can we just all stop acting unimpressed?  
There's a hundred million miracles in front of us passing by  
God open my eyes

I wanna be blown away!  
By your extraordinary grace every ordinary day  
Blown away!  
By your great big love in every little place  
I wanna slow down look around  
God please show me how to stop and be amazed  
I wanna be blown away!  
Blown away!

The Earth is full of heaven  
'cause you're always breaking through  
put the wonder back inside these eyes  
God, I don't want to miss you

When did we get so serious?  
Can we just all stop acting unimpressed?'

I wanna be blown away!  
By your extraordinary grace every ordinary day  
Blown away!  
By your great big love in every little place  
I wanna slow down look around God please show me how to stop and be amazed  
I wanna be blown away!  
Blown away!

I wanna be blown away!  
Blown away!

Yea!

I wanna be

I wanna be blown away
