

Hallelujah

Joshua Hyslop

Love break me down, pick me up off the ground
Oh, let me out from where I have gone
And unlock my heart, I don't know where to start
Love, break me down, and take me back home
Look at the clouds, the rain falls down
Oh, wash away my sorrow and pain
Now I can see the lost look a lot like me
In dust I was born and dust I shall leave
And
Hallelujah (Hallelujah)
Hallelujah (Hallelujah)
Hallelujah (Hallelujah)
Hallelujah (Hallelujah)
All that I've done, all that I should have done
All I've become, and all I should be
Oh I let you down, I've not quite figured out
What I will say when death's at my door
Hallelujah (Hallelujah)
Hallelujah (Hallelujah)
And you were not there on my loneliest day
And I don't understand why it happens that way
Hallelujah
(On my loneliest day)
Hallelujah
(Don't understand why it happens that way)
