

## This Is How It Goes

Joshua Hyslop

Standing on the steps thinking I could try again  
Or I could tear this all apart  
I don't need you now, like I did back then  
I just don't want to fall too hard

But this is how it goes  
When you let it back in  
This is how it goes  
And this is how it goes  
When you're defined by it  
This is how it goes

I can be alone, I could be myself again  
I don't have to play a part  
Getting offered sex even though you're waiting on [?]  
I just don't want to go that far

But this is how it goes  
When you lose lovers and friends  
This is how it goes  
And this is how it goes  
When your means become hands  
This is how it goes

And I hear a voice as sweet as before  
It's been the same from the start  
Oh just this once, and just this once more  
I watched this all fall apart

But this is how it goes  
When you let it back in  
This is how it goes  
And this is how it goes  
When your defined by it  
This is how it goes  
Goes
