

## Your Problem

Joshua James

Why you haven't even said your problem  
Hide your face like a little girl  
I keep your pennies in the freezer  
So you can cheat the bank  
Goodbye is gone, farewell is fair

Well, I don't mind it's all a bid for a meaning  
Turning your back on another friend  
You can make me the target, it's just a little blood  
Goodbye is gone, farewell is fair

Your call for unexplained behavior  
Cut my throat for a bigger plan  
You always took what you wanted  
Whether yours or not  
Slow along and slow, just say the end

Well, there ain't a wind that could take you from me  
I keep you strong for another day  
Headed back to the memory, what have I gotta pay?  
Slow along and slow, just say the end
