

Back To Where I'm From

Joshua Radin

You're on the side of the road
You don't know which way is down
Your head is spinning out of control
Since you left that little town

You told them all you'd be fine
You said just wait and see
You packed your bags as a little girl
And couldn't wait to leave

But then you said with a foot full of lead
Here I come
Here I come
Here I come

But then you got to the coast
And found your way to the hills
Those stars born in your eyes died
Were they killed?
You got just asked what you asked for
The big house and the ring
But then you looked in the mirror
And saw you didn't have anything

And so you said
With a foot full of lead
Here I go
Here I go
Here I go

And maybe it was something you always had
You look behind the man
You find you need your home instead
So you say

Here I come
Here I come
Here I come
Back to where I'm from
Here I come
Here I come
Back to where I'm from
