

# Friend Like You

Joshua Radin

I like the way you're not afraid  
You got the world planned in your mind  
People say you cannot do well  
They don't know a friend like you

The girl you love has gone away  
Still too young to know her heart  
She'll return her love renewed  
'Cause she'll never find a friend like you

When I had no one to call  
All the world had shut me down  
I showed up at your door so blue  
Thank god I had a friend like you

Many times I've gone without a home a meal  
A pair of shoes, if you had three you'd give me two  
There ain't no other friend like you
