

Make It Easy

Joshua Radin

The cars roll by outside, all night
The candle's halfway lost, it's light

Oh, I don't know how much we've had to drink
And I, wonder why I can't say the things I think

So if you want me, make it easy, I'm already halfway out the do
or
Tried to tell you, I don't want to, be the one who always has t
o say
"You should stay, don't go, don't go"

The clock says 12:04
And we've been here before

And oh, I don't know how I feel so tall then shrink
And I wonder why you can't say the things you think

So if you want me, make it easy, I'm already halfway out the do
or
Tried to tell you, I don't want to, be the one who always has t
o say
"You should stay, don't go, don't go"

Why do we, why do we chase the things that run?
Why do I fall back to the fear I'm not the one for you?

So if you want me, make it easy, I'm already halfway out the do
or
Tried to tell you, I don't want to, be the one who always has t
o say
"You should stay, don't go, don't go"
