

## Same Star

Joshua Radin

Hold on, there's silver in the line  
We see it all the time  
When you don't know which way to go  
Reachin' through the night

And it seems this rain will never end  
And then you finally catch a break, it's comin' down again

I'm not far from where you are  
We're lookin' at the same star  
Endless sky, ease your mind  
We're lookin' at the same star all the time

When there's a crack inside the pane  
You're lookin' where to blame  
That's where the air is comin' in  
By a different name

And you won't be standing in the cold  
When the moon begins to rise, you won't be alone

I'm not far from where you are  
We're lookin' at the same star  
Endless sky, ease your mind  
We're lookin' at the same star all the time

Ah, ooh  
Ah, ooh

I'm not far from where you are  
We're lookin' at the same star  
Endless sky, ease your mind  
We're lookin' at the same star

I'm not far from where you are  
We're lookin' at the same star  
Endless sky, ease your mind  
We're lookin' at the same star all the time
