

## The Greenest Grass

Joshua Radin

Time stopped when I saw you  
I could barely breathe  
And day broke when the sun rose  
Lighting up your face

I am a lucky man  
To recognize your grace  
When I woke this morning next to you  
I said baby this must be the place

And then you said  
I know I'll never find another like you,  
Where I'm going  
I know I'll never find another like you,  
Where the winds are blowin'

So when I'm far away from here  
I'm leaving you this song  
And when you feel you miss me  
You can always sing along

I am a lucky man  
To recognize your grace  
When I woke this morning next to you  
I said baby this must be the place

And then you said  
I know I'll never find another like you,  
Where I'm going  
I know I'll never find another like you  
Where the winds are blowin'  
You're the greenest grass growin'

You've got this way of saying things on my mind  
Before I know 'em  
I've got these feelings and I'm coming to find  
I'm ready to show 'em

Cause I know I'll never find another like you  
Where I'm going  
I know I'll never find another like you  
Where the winds are blowin'  
You're the greenest grass growin'

I said I know I'll never find another like you  
Where I'm going  
I know I'll never find another like you  
Where the winds are blowin'  
You're the greenest grass growin'
