

Your Rainy Days

Joshua Radin

I know you're out there
Walk the streets and I feel you everywhere
I know you're nearby
And the wonder that I'm missing makes me wonder why
I can't find you
My luck is down and I'm feeling blue
I've tried everything
Except to stand on the corner so you hear me sing
Hey baby, I think that maybe you should come out to play
Let me shelter you on your rainy days
But I'm the only one
When everybody's sunny day has just begun
They walk hand in hand
And I smile at them all the best I can
Cuz I can't find you
My luck is down and I'm feeling blue
Except to stand on the corner so you hear me sing
Hey Hey Hey baby
I think that maybe you should come out to play
Let me shelter you on your rainy days
I will be your shelter
I will be your shelter
I can't find you
My luck is down and I'm feeling blue
I've tried everything except to stand on the corner so you hear
me sing
Hey Hey hey baby I think that maybe you should come out to play
Let me shelter you on your rainy days
I will be your shelter
I will be your shelter
