

Bring on Christmas Day

Joss Stone

We made it home
So what if it's cold?
The Christmas tree is aglow
Hold up your one glass
If light, drink it too fast
Just don't let your loved ones go

Just bring on Christmas day
Throw your fears away
Open up your door, ask for nothing more
And bring on (Bring on) Christmas (Christmas) day

We made it home
So many of us don't
We gotta count our blessings as they come
Never alone
When the world gets too heavy to run
Somehow, we're still hanging right on

Just bring on Christmas day
Throw your fears away
Open up your door, ask for nothing more
And bring on (Bring on) Christmas (Christmas) day

When the wars are over, our hearts can rest
It's Christmas day, so give your best

Bring on Christmas day
And throw your fears away
Open up your door, ask for nothing more
Bring on (Bring on) Christmas (Christmas)
Bring on Christmas day
Throw your fears away (Throw them right away)
Open up your door, ask for nothing more
Bring on (Bring on) Christmas (Christmas) day

Bring it right on
We've been waiting a whole year
So turn on those lights
And the mistletoe
Just right
And pour me another glass of wine
Merry Christmas
