

# If You Believe

Joss Stone

Come gather 'round  
Can you hear that magic sounds?  
The snowflakes are falling  
The jingle bell's calling  
There's a new world about to be found

You are the joy  
Every little girl and boy  
Those face are priceless  
The sparkle of kindness  
That's why he won't let you down

Santa's got a sleigh together  
He is on his way to you  
He won't make you wait forever  
Just one night will do

If you believe  
Then you will hear the angels drum  
If you believe  
Then you will see a reindeer run

If you believe  
Do you believer?

Come gather near  
Let go of all your fear  
The lightness of love will cover you up  
Christmas is finally here

If you believe  
Then you will hear the angels drum  
If you believe  
Then you will see a reindeer run

If you believe  
Then you will hear the angels singing now  
If you believe  
Then you will hear the angels drum

If you believe  
Do you believer?

He will fly through stormy weather  
Rain, thunder, sleet and snow for you  
'Cause he knows that there's nothing better  
Than making dreams come true
