

# Incredible

Joss Stone

Aye, aye, aye, aye, aye  
Yeah, yeah

I don't wanna take your shine  
So it's okay if you  
Wanna take mine  
Take it from me, baby

Extract the soul from human kind  
What a shame  
Down the line  
Nothing left to lie

So many days I might have wasted  
Staring at the picture fading  
Get the camera off my face now  
Time is running out, stop pushing me down

Just incredible, you shock me daily  
Unforgettable, now get some help  
Can I mention you sent me to your hell?  
Yeah, ooh, hey, yeah, yeah

Ooh  
Worry how we will proceed this  
But really, should I care?  
Let me know, baby  
Ooh, ooh, yeah

And I can feel your eyes are shifting  
Tryna push me left and right  
Make up your mind  
Can't you see the light?

So many days I might have wasted  
Staring at the picture fading  
Get the camera off my face now  
Time is running out, stop pushing me down

Just incredible, you shock me daily  
Unforgettable, now get some help  
Can I mention you sent me to your hell?  
Yeah, yeah, yeah, now

You're incredible, you shock me daily  
Unforgettable, now get some help  
Can I mention you sent me to your hell  
Yeah, yeah

Break it down, yeah  
Ooh, woo, woo, woo  
Too many days I might have wasted  
Staring at the picture fading  
Now get the camera off my, my face now  
Time is running out, stop pushing me down

You're incredible, baby

Hey, yes, you are, baby, baby  
You're just, you're just ridiculous  
I'm telling you now, telling you now  
Baby, baby, yes, you are

Yeah, now  
Yeah, yeah, hey, yeah
