

# Warriors Of Peace

Joss Stone

And the wind shall come down from the mountains  
To be carried through meadows and seas  
Bringing warriors of peace  
Warriors of peace  
To beat swords into plowshares with grace

And the mothers and fathers will follow  
As the children are leading the way  
Forging warriors of peace  
Warriors of peace  
To beat swords into plowshares today

If you want to join the show  
Take my hand and let us go  
Where the sun is  
It's not so far away  
When you're weak and when you're strong  
Don't forget that you belong where your heart is  
Just listen to what it says

I got love in my heart to protect me  
From the speakers of hatred and rage  
With them warriors of peace  
Warriors of peace  
I'll beat swords into plowshares today

Look out you who are leading from darkness  
Who ride the fear of the poor and displaced  
Here come those warriors of peace  
Warriors of peace  
To beat swords into plowshares today

If you want to join the show  
Take my hand and let us go where the sun is  
It's not so far away  
When you're weak and when you're strong  
Don't forget that you belong where your heart is  
Listen to what it says

My heart is expanding my spirit is rising  
My soul is revealed my body is healed  
Through love and compassion good people unite  
To turn anguish to hope and darkness to light

My heart is expanding my spirit is rising  
My soul is revealed my body is healed  
Through love and compassion good people unite  
To turn anguish to hope and darkness to light

Darkness to light  
Darkness to light

If you want to join the show  
Take my hand and let us go  
Where the sun is  
It's not so far away

When you're weak and when you're strong  
Don't forget that you belong where your heart is  
Listen to what it says

Listen to your heart...

Here come the warriors of peace  
Warriors of peace  
To beat swords into plowshares with grace

Here come the warriors of peace  
Warriors of peace  
To beat swords into plowshares with grace
