

After Glow

Journey

Our sacred space
Where we can melt away
Come with me now
The world is fading

Just you and me
Heart's that beat together
Love is complete
Perfection waiting

Falling into you
Like a sweet summer rain
Somehow, we knew
Together, make moments
Last forever
Together, make moments
Last forever

Could be anywhere
With one look you take me there
Could be day or night
Soul and body, I am waiting

Out of the blue
Feel me there for you
Ah, time can't define
Where time is on our side

Fall into you
Like a sweet summer rain
Somehow, we knew
Together, make moments
Last forever
Together, make moments
Last forever

Can you pull me in?
Let the love begin
Afterglow
The afterglow
Beyond compare
So right, so rare
Afterglow
Ooh baby, the afterglow

Afterglow, the afterglow
Afterglow, the afterglow
Ooh, the afterglow, oh the afterglow
(Afterglow, the afterglow)
The afterglow, beyond compare
(Afterglow, the afterglow)
So right, so rare
Ooh, the afterglow
The afterglow
The afterglow
