

All Day and All Night

Journey

Morning comes
Miss your light
Want you near

Evening falls
Need your touch
Wish you were here
I feel
I'm sure
Gotta be close
Time with you, baby
Is what matters the most

Whoa, whoa, whoa, yeah, yeah
Whoa, whoa, whoa, yeah, yeah

The way I want ya
All day and all night
Now my life's about ya
All day and all night

You and me
Time stands still
Whenever we kiss

Start a fire
All we desire
What's more than this?

I say
Seasons come and maybe go
Our love's forever more, yeah, yeah

Whoa, whoa, whoa, yeah, yeah
Whoa, whoa, whoa, yeah, yeah

The way I want ya
All day and all night
Now my life's about you, yeah
All day and all night

I say...
Seasons come and go
Our love, our love's forever more, yeah

The way I want ya
All day and all night
Now my life's about you
All day and all night

All day, all night, all day I want ya
All day, all night, all day I love ya
