

# Better Together

Journey

Young and wild with a madness  
I wouldn't listen  
I thought I knew just exactly  
The way life would be, you see  
You came along and you showed me  
Just what I was missing  
You opened my eyes with your sweet love  
Oh, then I could see

They said it wouldn't last  
We proved them wrong  
We learned to fly above the storm  
Cause we've always known that we belong  
And we're better together  
If we got our backs against the wall  
Somehow we survive through it all  
Knowing I'll be there if you should fall  
Oh, we're better together, all right, yeah yeah

Running alone, I was searching  
While you were there waiting  
Lessons in love I was learning  
Were all right with me, you see  
You changed my world and you gave me  
Aw, the kiss you were saving  
Ooh, we had each other to fight for  
Ooh, when no one believed

They said it wouldn't last  
We proved them wrong  
We learned to fly above the storm  
Cause we've always known that we belong  
And we're better together  
If we got our backs against the wall  
Somehow we survive through it all  
Knowing I'll be there if you should fall  
Yeah, we're better together

Ooh it gets so lonely out there  
Oh, playing my solitaire

Oh, Mustang  
All right  
Wait a minute  
Young and wild with a madness  
This time I listened, baby  
You opened my eyes with your sweet love  
Ooh, yeah, you set me free

They said it wouldn't last  
We proved them wrong  
We learned to fly above the storm  
Cause we've always known where we belong  
Yeah we're better together  
Oh, if we got our backs against the wall  
Somehow we survive through it all  
Knowing I'll be there if you should fall

Oh we're better together  
So much better, girl, we're better together  
Better together, all right  
Listen  
Let's get together, let's get together, all right  
Let's get together, well  
Let's get together, let's get together right now  
It's just, it's just better that way
