

## I Would Find You

Journey

Many days have faded away  
And the time has passed  
Those were memories  
That have been by so fast

I can't see you  
I can't hear you  
But I feel you

I would find you, well I would find you  
Well, I would find you, I would find you  
I would find you, I would find you, I would find you

Now that we know that we've been there  
And the time is running out  
That message was from  
The Lord, without a doubt

I can't see you  
I can't hear you  
But I feel you

Could it be that I feel so all alone?  
It's you that's driving me mad  
Oh you won't leave me alone

You have touched my soul  
Certainly you have touched my soul  
Now hear me

Could it be that you feel so all alone?  
If it's me that's driving you mad  
Oh, I would leave you alone  
Oh yes, I would
