

# Life Rolls On

## Journey

In the still of the night  
I look back on times that have changed me  
People whose faces all fade away  
And places that all seem like yesterday  
As I look to the road ahead  
Grateful, alive and I'm breathing

Yeah, life rolls on  
Right or wrong  
Turn around, face the changes  
Life rolls on  
Stealin' time  
Just don't get left behind

Times we're anxious for nothing  
Finding faith to face a new day  
In the balance is compromise  
Believe love leads the way

Seasons change us  
While life's songs remain the same  
Moments shape us  
All you believe

At the speed of light  
We make up our minds  
Life rolls on

Together, we face it all  
Find where we belong  
Confusion, illusion  
See through it all

Hold on, baby take my hand  
Where we belong, yeah  
Freedom calls our name  
We'll sing our song  
Ooh-ooh, yeah

The old has passed away  
We face a brand new day  
It's time to face the truth  
To everything we knew

So now baby, just hold on  
Try to stand strong  
Yeah, feel life rolls on, oh

Life rolls on  
Life rolls on, everyday  
Life rolls on  
Yeah, life rolls on, everyday  
Life rolls on  
Ooh, we're movin' on  
Feel, life rolls on  
Ooh, keep movin' on  
Feel, life rolls on

Oh-oo-oh  
Life rolls on
