2. So much information streaming at us fast
What I really need to know is if we can make it last
I wanna keep you close
We make commitments... take responsibility
Why do we let them come between you and me
That's when I miss you most

X: We gotta take this night... knowing our love won't wait
Before our moment is gone... baby say it's not too late

R: Help me turn down...

*: Far beyond the noise with your body next to mine
Won't you help me turn down the world tonight
