

# Never Let Me Go

Jovanotti

I saw you one for your body  
Two for your smile rockin' around the party  
When the beat is wild an' when the ragamuffin'  
Vibe is at the top get up an' sing yeoh  
I say three for your attitude,  
Four for your face rockin' around the music  
That the deejay plays saw you rolling  
Over me my baby sing yeoh  
You got me girl

Girl never let me go  
You got me girl never let me go  
Some of them were risin' up some of theme  
Were goin' down you're a girl and you're fine  
You're the best around I thank god' cause  
I don't believe in wot I found sing yeoh  
And now the city is like heaven  
And the street is like a beach I'm rockin' over  
Rolling over got no money but

I'm rich I fee, fee, fee, feel a vibration  
Get up and sing yeoh you got me girl  
Girl never let me go  
You got me girl never let me go  
The day, the night  
The dark and the light  
The left and the right  
I'm feeling all right  
You got me girl

Girl never let me go you got me girl  
Never let me go never let me go  
I saw you one for your body  
Two for your smile rockin' around the party  
When the beat is wild an' when the ragamuffin'  
Vibe is at the top get up an' sing yeoh  
I say three for your attitude  
Four for your face rockin' around the music  
That the deejay plays

Saw you rolling over me  
My baby sing yeoh you got me girl  
Girl never let me go  
You got me girl never let me go  
Some of them were risin' up some of theme  
Were goin' down you're a girl and you're fine  
You're the best around  
I thank god' cause I don't believe in wot  
I found sing yeoh and now the city is like heaven

And the street is like a beach  
I'm rockin' over, rolling over got no money  
But I'm rich I fee, fee, fee, feel a vibration get up  
And sing yeoh you got me girl  
Girl never let me go you got me  
Girl never let me go  
The day, the night

Girl never let me go  
You got me girl never let me go
