

One Nation

Jovanotti

There's a tribe on the world, they are dancin' on the scene
Groovin' to the rhythm of a drum machine
They sing for one nation
They sing for one nation
Do it to me brother, do it to me sister
Do it to me brother, do it to me sister
Well everybody dance, well everybody dance...

Together in the same boat, note, that we're afloat, and it's wrote
That we are people of the same seed, indeed, we feed and need to select,
a way together to connect
Respect the other, 'cause the other brother is a member of the same game,
riding on the same train
Along with this track, don't turn your back, some participation please,
as we are one nation

One nation...

There's a tribe on the world, they are dancin' on the scene
Groovin' to the rhythm of a drum machine
They sing for one nation
They sing for one nation
Do it to me brother, do it to me sister
Do it to me brother, do it to me sister
Well everybody dance, well everybody dance...

One nation, one way to be the same, I'm bored to see the people never
love just hate
Education that's what we need a good one, to make us all believe in a
better day
To be in love for a colour not black or white but red, 'cos red is the
colour of love
That you gotta give to the people who need, like the kids in the street,
now listen...

Together in the same boat, note, that we're afloat, and it's wrote
That we are people of the same seed, indeed, we feed and need to select,
a way together to connect
Respect the other, 'cause the other brother is a member of the same game,
riding on the same train
Along with this track, don't turn your back, some participation please,
as we are one nation

One nation with the rhythm from the heartbeat, ticking in time in life
together, that's what we need
To forget, not neglect, but protect and select, a way to treat brothers
as equal and correct
Life is too short to be believed in the wrong way, to make things clear
make sure you have your own say
We're here to be strong with each other, go forward together like sisters
and brothers

One nation...

There's a tribe on the world, they are dancin' on the scene
Groovin' to the rhythm of a drum machine
They sing for one nation
They sing for one nation
Well everybody dance...
