

## Diamond

JOY.

To tell it politely  
I shouldn't evade what to say, what to say  
And I could shut it down if I tried  
But I can't help but feel an anxiety

Yeah, I'm already done  
I'm already done with you  
Yeah, I'm already done with you  
Don't go running, now  
(Don't go running, now)

Just know I'm bold, bold, bold  
I can hold my own if I try to  
Even if I'm cold, cold, cold  
I can hold my own in this climate  
Just know I hold, hold, hold  
All of that unfolds in a diamond  
Even if I'm cold, cold  
I can hold my own in this climate

I've acted naive  
I shouldn't hold it back just to please for the reason  
Life just don't come to me with ease  
'Cause I got a little colder

Yeah, I'm already done with you  
I'm already done with you  
Though I've had no fun with you  
This game isn't over

Just know I'm bold, bold, bold  
I can hold my own if I try to  
Even if I'm cold, cold, cold  
I can hold my own in this climate  
Just know I hold, hold, hold  
All of that unfolds in a diamond  
Even if I'm cold, cold  
I can hold my own in this climate
