

Fake It

JOY.

Standing on the outside looking in
Tracing back on every bar we've been
It doesn't matter what we say
Doesn't matter what we think
Cause I'm never going down that road again

I can feel it all
Deep inside of me
Up against a wall and I wanna scream

Don't you know I fake it with conviction
Knowing that you play me like a victim
Oh and all that I see all that's written
Cause I can't help but fake it, fake it, fake it

Trying to go the distance but I'm frozen, frozen
Stuck between a heartache, I'm so broken it's poisonous with yo
u
Slowly I've been drifting away, away from you
And I know when it goes

I can feel it all
Deep inside of me
Up against a wall and I wanna scream

Don't you know I fake it with conviction
Knowing that you play me like a victim
Oh and all that I see all that's written
Cause I can't help but fake it, fake it, fake it

I can feel it all
Deep inside of me
Up against a wall and I wanna scream

Don't you know I fake it with conviction
Knowing that you play me like a victim
Oh and all that I see all that's written
Cause I can't help but fake it, fake it, fake it
