

Need You

JOY.

You love me in the rain
You like it tapping on the windscreen
Couldn't understand
Couldn't call your name

And now I need you
And you need me too
Don't leave me
You said that you never would

This is [?]
I'd rather crash and burn and turn around
I know there's things we need to talk about
Nothing a few words can't hurt

Not my fault
It can't be all my fault this time
It can't be all my fault
Don't make me out a fool this time

You hurt me
Thinking you could deserve me
You hurt me
By thinking you could desert me

And now I need you
And you need me too
Don't leave me
You said that you never would
