

My Big Sky

Joy Again

You're coming down
You're looking off
Skin and bones you're in the dark
I don't think I have the heart
To help you through the hardest part
You left me in winter time
You don't need a thing of mine
But I need you like I need my
Needles in the camel's eye

And I can't really say
Why words get in the way
If you told the truth
I wouldn't be asking you

What about me?
About me
About me
What about you?
About you
About you
What about everything you put me through?
I still, I do
I do it all for you
For you

How are you? It's been awhile
Since you've been close
A country mile
You stick around and make me smile
But I forgot that's not your style
You came home in summer time
You kissed me under my big sky
You held your tongue you shut your eyes
Come on spit it out
We're wasting light

And I can't really say
Why words get in the way
If you told the truth
I wouldn't be asking you

What about me?
About me
About me
What about you?
About you
About you
What about everything you put me through?
I still, I do
I do it all for you
For you

What about me?
About me
About me
What about you?

About you
About you
What about everything you put me through?
I still, I do
I do it all for you

Me, about me, about me, about me, about me
About you, about you, about you, about you
And if it all comes to end, it still will be true
That I do it all, I do it all, I do it all
For you
