

Nobody Knows (2018)

Joy Again

It's like you do it on purpose
Could you tell me if it's worth it?
And when you sit down to watch the TV screen
Well, do you ever see clear?

Or do you just sit there?
Do you play with your hair?
And then you bleach your breath [?] cut your bangs?
Change yourself to forget my name?

Nobody knows

It's so easy to feel like
Like I'm in love
With some complete stranger who just doesn't care
Where are you? Just take me there

Nobody knows
Nobody knows
Some complete stranger who just doesn't care
Where are you? Just take me there
Nobody knows
Nobody knows

But you, oh, you are with me now
Please don't cry, you are with me now
I know that you are with me now
At least that you are here
With me
With me
With me
