

## Sungazing

Joy Again

Outright unfair  
Do you still care?  
Some people got it all wrong  
And I just stayed too long

Street sign, gold night  
Smoke hangs in low light  
Everything stands still  
And you just need to feel

Heartless, hearts are  
Worthless if you think too hard  
The crazy tricks your head can play  
On you when you lose your way

Headlamps, searching  
For more earthlings  
Don't worry about something so small  
When you've known something worse for so long
