

## Who Knows

Joy Again

I could do right for myself  
Look around for someone else  
But I can't stop thinkin' bout you  
Don't think I can live without you

Maybe sometime, call me  
I'll be around to hear it all out  
Honest, I'll wait  
Think of the thing we could be

Who knows how long I have been here  
Waiting for someone like you to appear  
If I'm honest I wanted to tell you somethin'  
You don't even wanna hear

Spending time in my own hell  
'Til I saw you come around  
It's time I came clean and told you what I mean  
I dream that you want to be next to me

Maybe sometime, call me  
I'll be around to hear it all out  
Honest, I'll wait  
Think of the thing we could be

Who knows how long I have been here  
Waiting for someone like you to appear  
If I'm honest I wanted to tell you somethin'  
You don't even wanna hear

Who knows how long I have been here  
Waiting for someone like you to appear  
If I'm honest I wanted to tell you somethin'  
You don't even wanna hear

You won't even notice me  
You won't even notice me  
You won't even notice me  
You won't even notice me
